

MINISTRY OF FINANCE AND ECONOMIC MANAGEMENT
GOVERNMENT OF THE COOK ISLANDS
COOK ISLANDS
STATISTICAL BULLETIN

MISCELLANEOUS STATISTICS
December Quarter 2020

The Miscellaneous Statistics is a compilation of statistics from various data sources, such as building approvals, energy consumption, aircraft movement, motor vehicle registration, air cargo and climate.

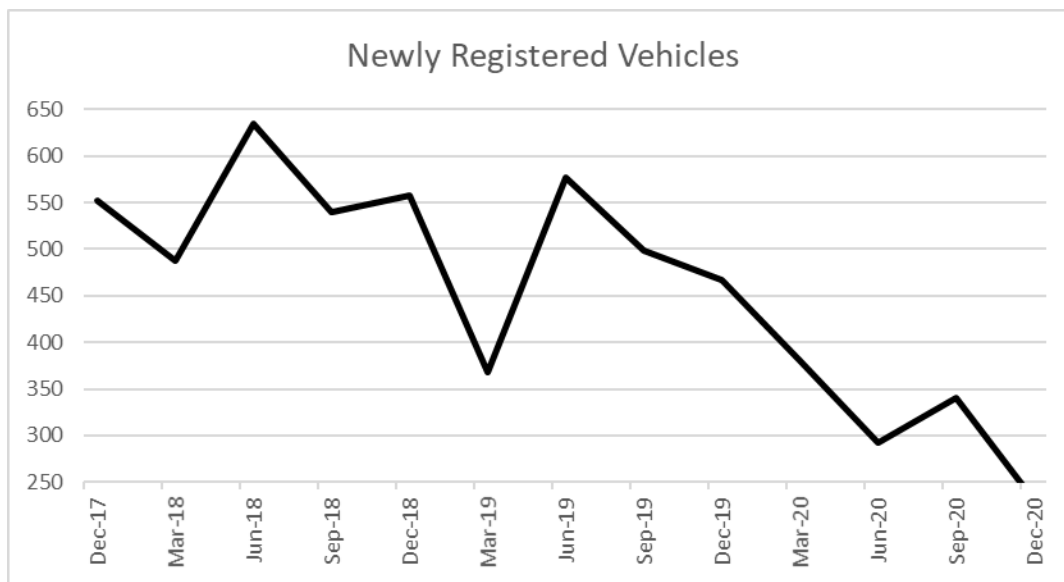

Building Approvals – The total value of buildings approved during the December quarter 2020 (3,319) a decrease by 52.5 per cent when compared to September quarter 2020 (6,990). Residential buildings contributed 93.2 per cent in the total value of building approvals and the Commercial buildings contributed 6.8 per cent.

Electricity Generated - Total electricity and renewable energy generated in the Cook Islands for the December quarter 2020 was 7.9 million kWh, a 6.4 per cent increase when compared to September quarter 2020. Of the total electricity and renewable energy generated 83.5 per cent was consumed on Rarotonga, followed by 16.5 per cent from the selected outer islands.

Aircraft Movement - International flights out of Rarotonga has a total of 14 flights in December quarter 2020.

Newly Registered Motor Vehicle - Newly registered vehicle for December quarter 2020 decreased by 32.3 per cent compared to September quarter 2020. Motor cycles continued to be the highest type of vehicles registered (58.0 per cent), followed by Cars, Jeeps and Station Wagons (18.6 per cent), Vans and Pickups (13.9 per cent).

Air Cargo - The total weight of 188,000 kilograms of air cargo was recorded in the December quarter 2020. Of the total weight recorded for air cargo this is a 16.9 per cent increase when compared to September quarter 2020. Air cargo imports recorded a total weight of 164,000 kilograms and for exports recorded a total weight of 24,000 kilograms for December quarter 2020. The actual value and descriptions of the air cargo imports/exports is captured in the Overseas Trade Statistics publication.

Climate - Rarotonga and Aitutaki recorded an average temperature of 25.2 and 24.9 degrees Celsius, with a total rainfall of 257 millimeters for Rarotonga and 474 millimeters for Aitutaki. Penrhyn had an average temperature of 28.2 degrees Celsius with a total rainfall of 127 millimeters during December quarter 2020. A total of 609 hours of sunshine was recorded for Rarotonga.

Further information about this release can be obtained from the Statistics Office.

Source: Energy Division of the Ministry of Infrastructure and Planning and Te Aponga Uira, Rarotonga and the Outer Islands Admin Office.
Electricity generated on Rarotonga & Atituki are actual numbers and some of the islands are estimated.

(1) Statistics Office just started collecting electricity generated from Palmerston Island.

(2) Statistics Office just started collecting electricity generated from Pukapuka Island.

(3) Statistics Office started collecting Renewable energy data for Rarotonga in 2014, and for most of the outer islands started in 2017.
