Notes:

The value of overseas assets owned by a nation, minus the value of its domestic assets that are owned by foreigners, adjusted for changes in valuation and exchange rates. A nation's Net Foreign Assets (NFA) position is also defined as the cumulative change in its current account over time. The net foreign assets position indicates whether the nation is a net creditor or debtor to the rest of the world. A positive NFA balance means that it is a net lender, while a negative NFA balance shows that it is a net borrower.

An alternative definition of "Net Foreign Assets" from the World Bank is that it is the sum of foreign assets held by monetary authorities and deposit money banks, less their foreign liabilities.

Explanatory Notes:

Introduction

Banking Statistics is a measure of banking activities carried out by the four commercial banks operating here in the Cook Islands.

Scope

These Four (4) banks are Australia and New Zealand banking group (ANZ), Bank of the South Pacific (BSP) Bank of the Cook Islands (BCI) and Capital Security Bank (CSB).

The survey does not cover offshore banking activities of the other financial institutions operating in the Cook Islands that do not offer banking facilities that residents can access, like deposit taking and loan facilities, etc.

Data collection

Banking Statistics data was traditionally collected via banking survey forms sent to the commercial banks to fill out and return. At the start of 2013, the data for this series was collected from the Financial Supervisory Commission (FSC) using the prudential report forms. The reasons for the change in data collection include: the FSC already collects the data from the banks in its role as the monitoring agency for financial institutions; collecting the data from the FSC reduces respondent burden on the banks; and information derived from the data received from the FSC raises the reliability of the data for users.

Data processing

FSC provides a report via email to our office for processing into the banking statistics series.
